SOFTWARE DEVELOPMENT & RELEASE CYCLE

WHERE'S THE METHOD IN THE MADNESS?

Isabel Muller

CONFIDENTIALITY

- This document has been issued to the receiving party in the strictest confidence and no parts of this or any other document in this regard may be reproduced or communicated in any form without the express prior consent of the authors.
- The receiving party shall make only such use of the information contained herein as is intended and authorized by an agreement between such receiving party and Spatial Dimension.
- The receiving party will not use or exploit the confidential or proprietary information contained herein for its own benefit or that of any third party and may make only such use of such confidential or proprietary information as is contemplated or specifically authorized by the disclosing party. The receiving party further undertakes that in the event that they do not wish to progress a relationship with Spatial Dimension they will forthwith return to the address contained herein this and any other material related hereto.

THE MADNESS: CLIENTS ARE ASKING...

How do you keep straight among the different client's code?

What is the difference between development, beta and release code?

Why do I need more than one FlexiCadastre instance?

When will I receive the functionality that I have requested?

How do you keep track of my requirements?

How do you know if a bug that I report fixes just my code or will fix something that is broken for others?

When are you going to fix my bug?

What should I do with release notes?

How do you test FlexiCadastre?

How should I test FlexiCadastre?

THE METHOD...

How do you keep straight among the different client's code?

CORE FlexiCadaastre CODE

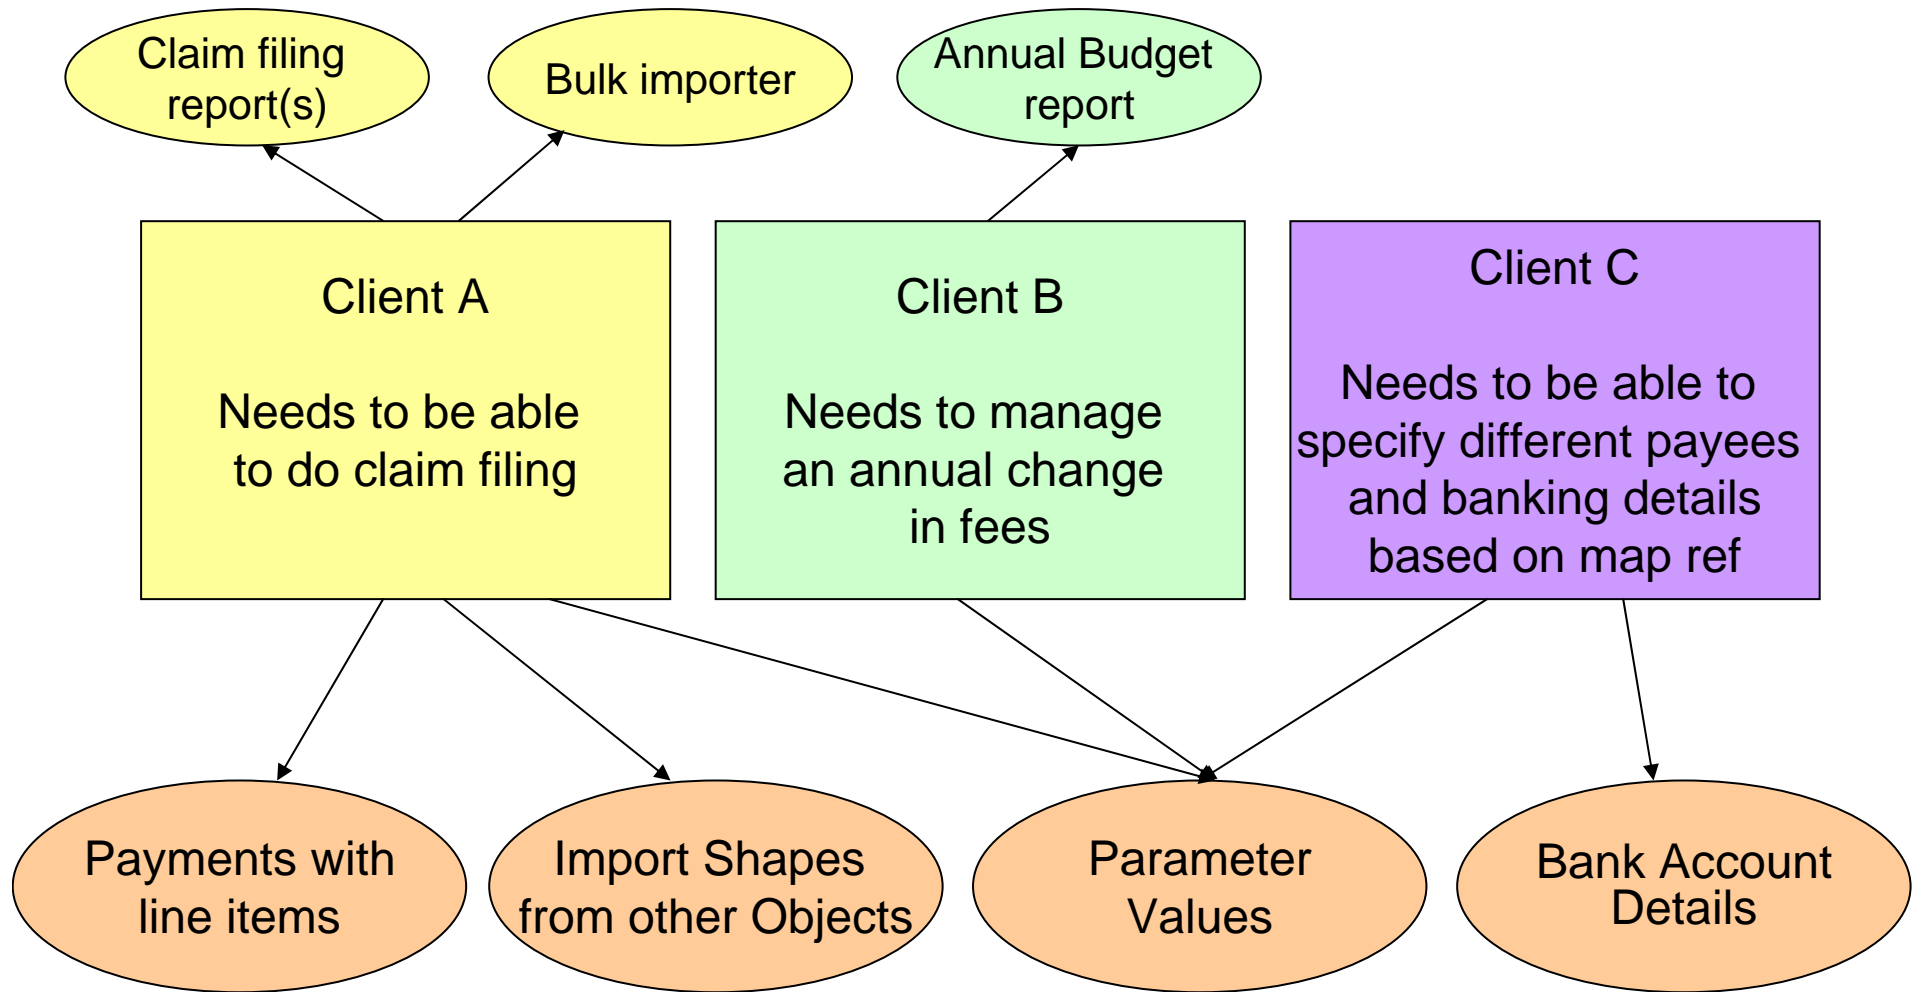

CLIENT SOLUTION

Configure FlexiCadastre

Client A Solution

ADDRESSING CLIENT NEEDS

SOLUTION: CLIENT A

Needs to be able to do claim filing

Configure FlexiCadaastre

Client A Solution

SOLUTION: CLIENT B

Needs to manage an annual change in fees

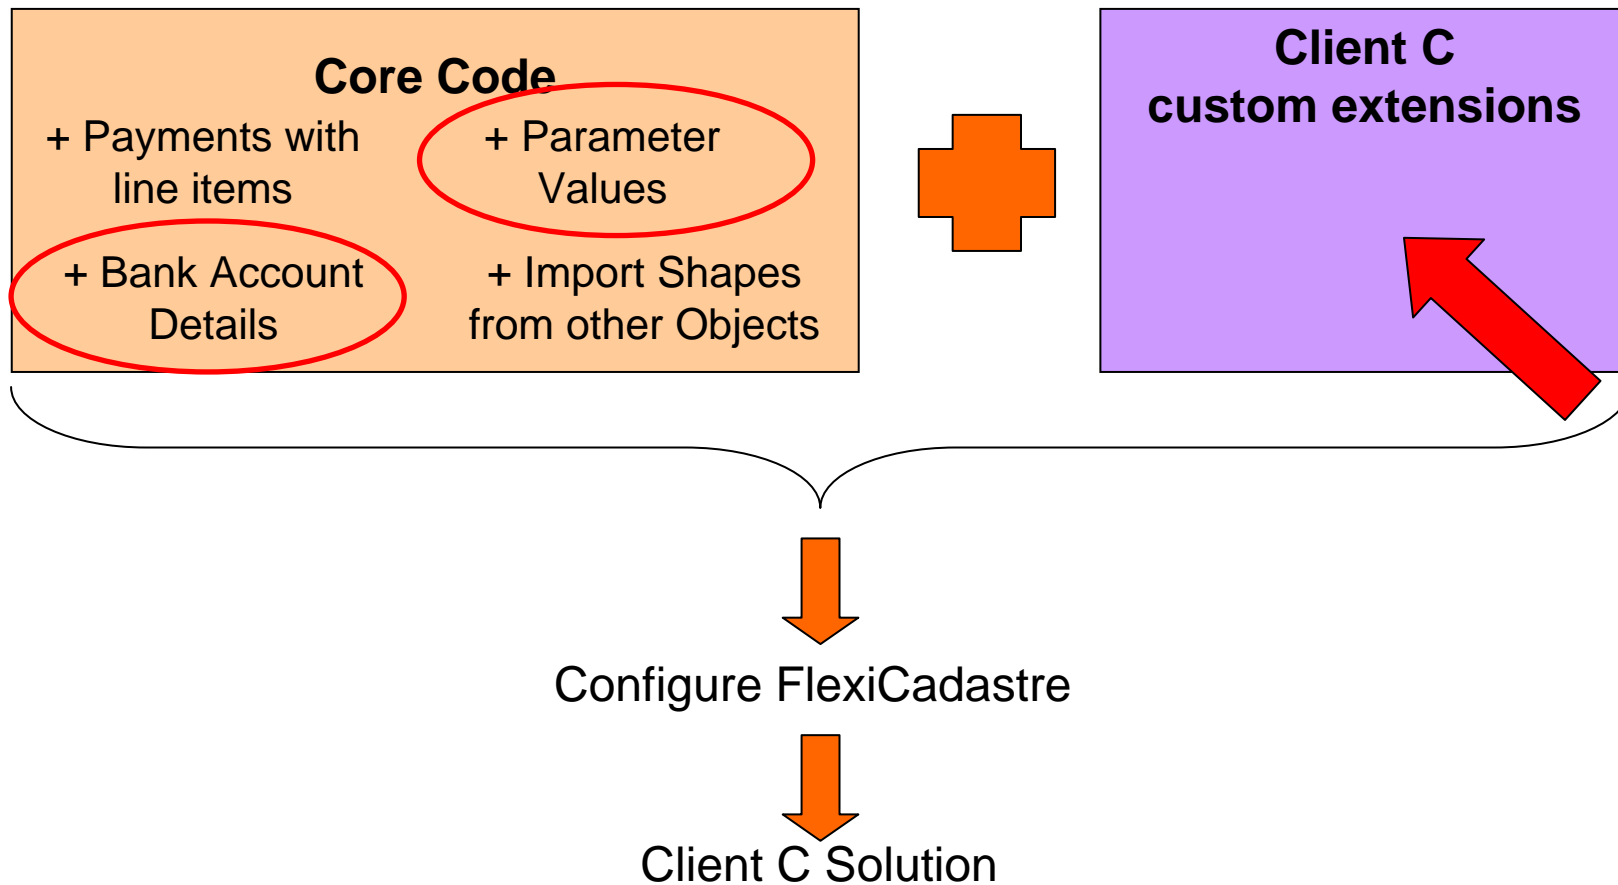

Configure FlexiCadastre

Client B Solution

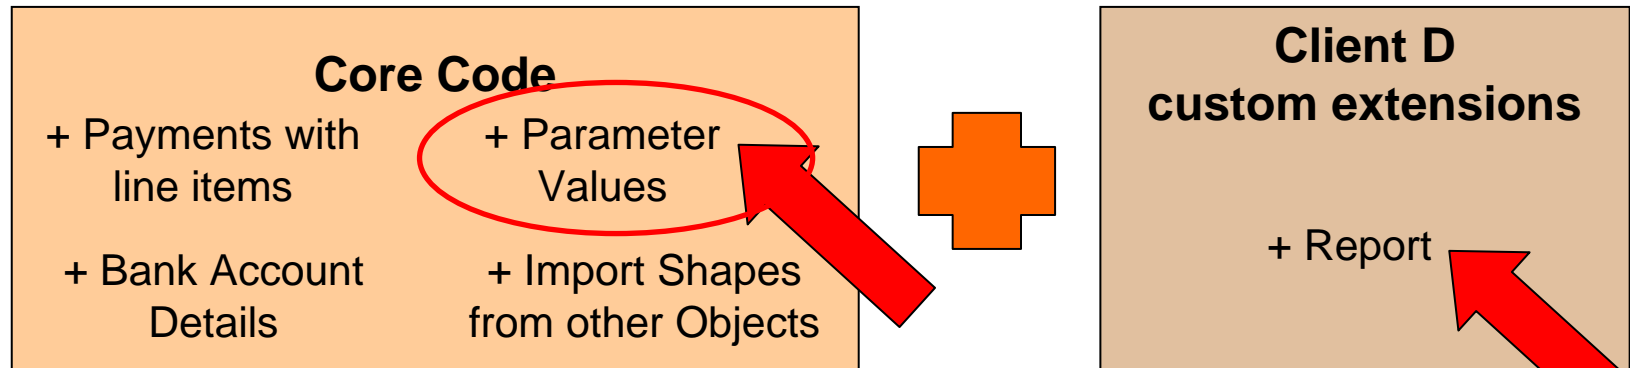

SOLUTION: CLIENT C

Needs to be able to specify different payees and banking details based on map refs

SOLUTION: CLIENT D

No specific needs

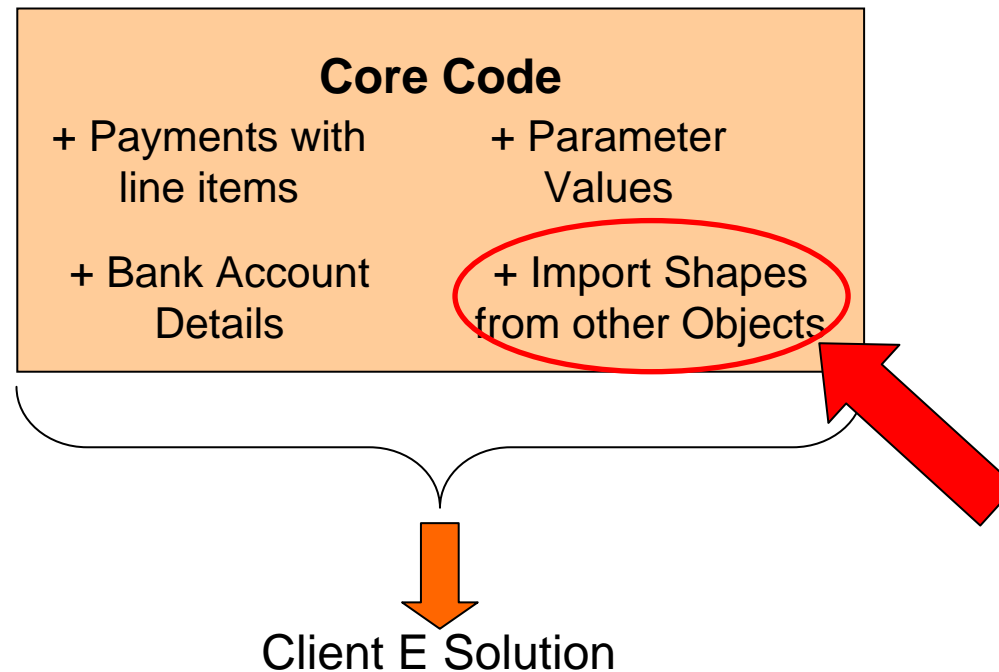

Client D Solution
Configure FlexiCadastré

Client D Solution

SOLUTION: CLIENT E

No specific needs

A QUESTION ARISES

- How do I identify new, exciting enhancements which I can use in my solution?
- More on this later...

THE METHOD...

- Report bugs

ALL THIS MADE POSSIBLE BY...

An incredible development team!

Polonius in Shakespear's Hamlet:

**Though this be madness,
yet there is method in't.**
