AN MS GROUP BUSINESS

flexicadastre

Welcome to the 2010 FlexiCadastre User Conference

Bill Feast
Managing Director

How do we define success?

Surviving fallout since September 2008?

Recent client signings?

Teck

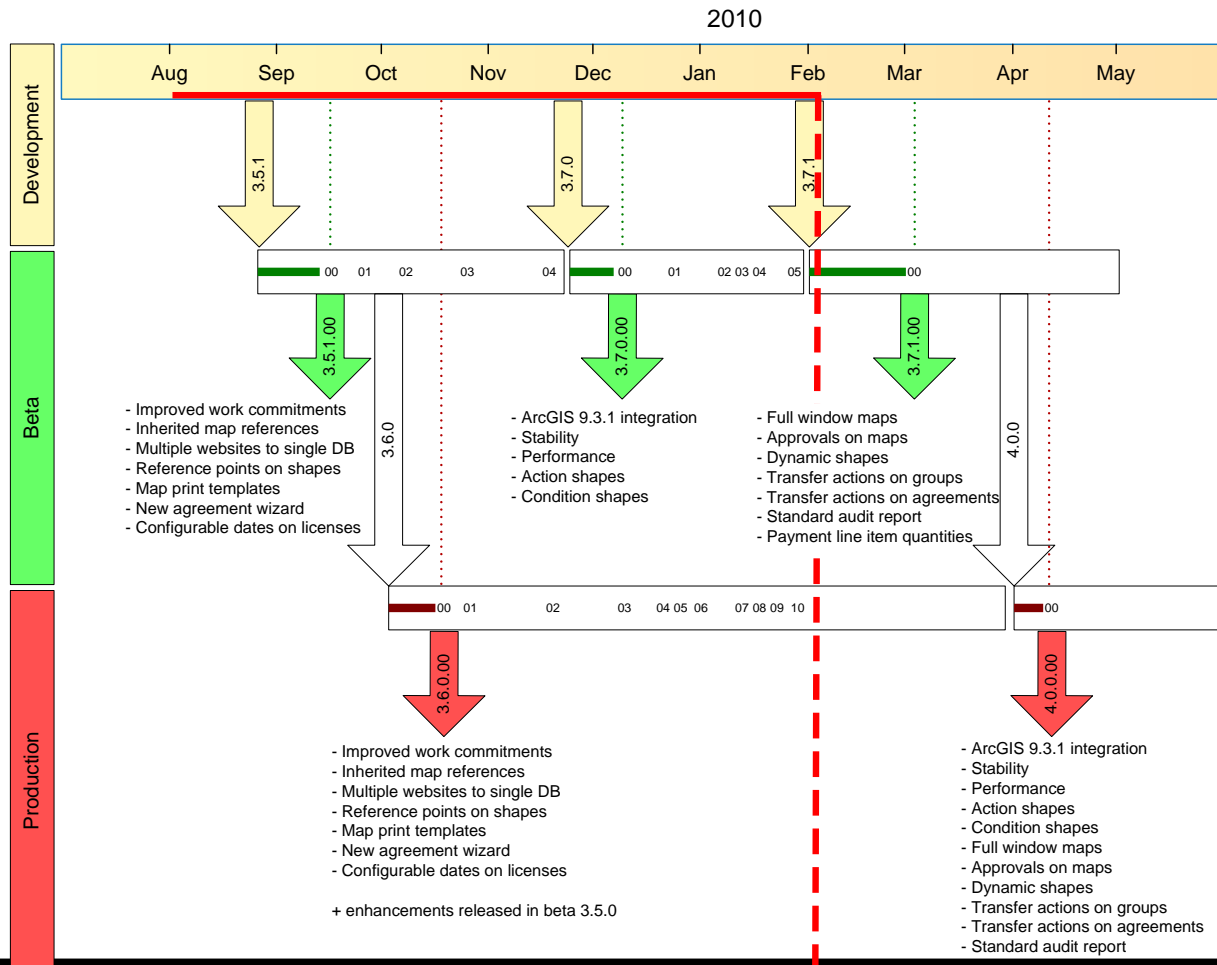

Senegal

Liberia

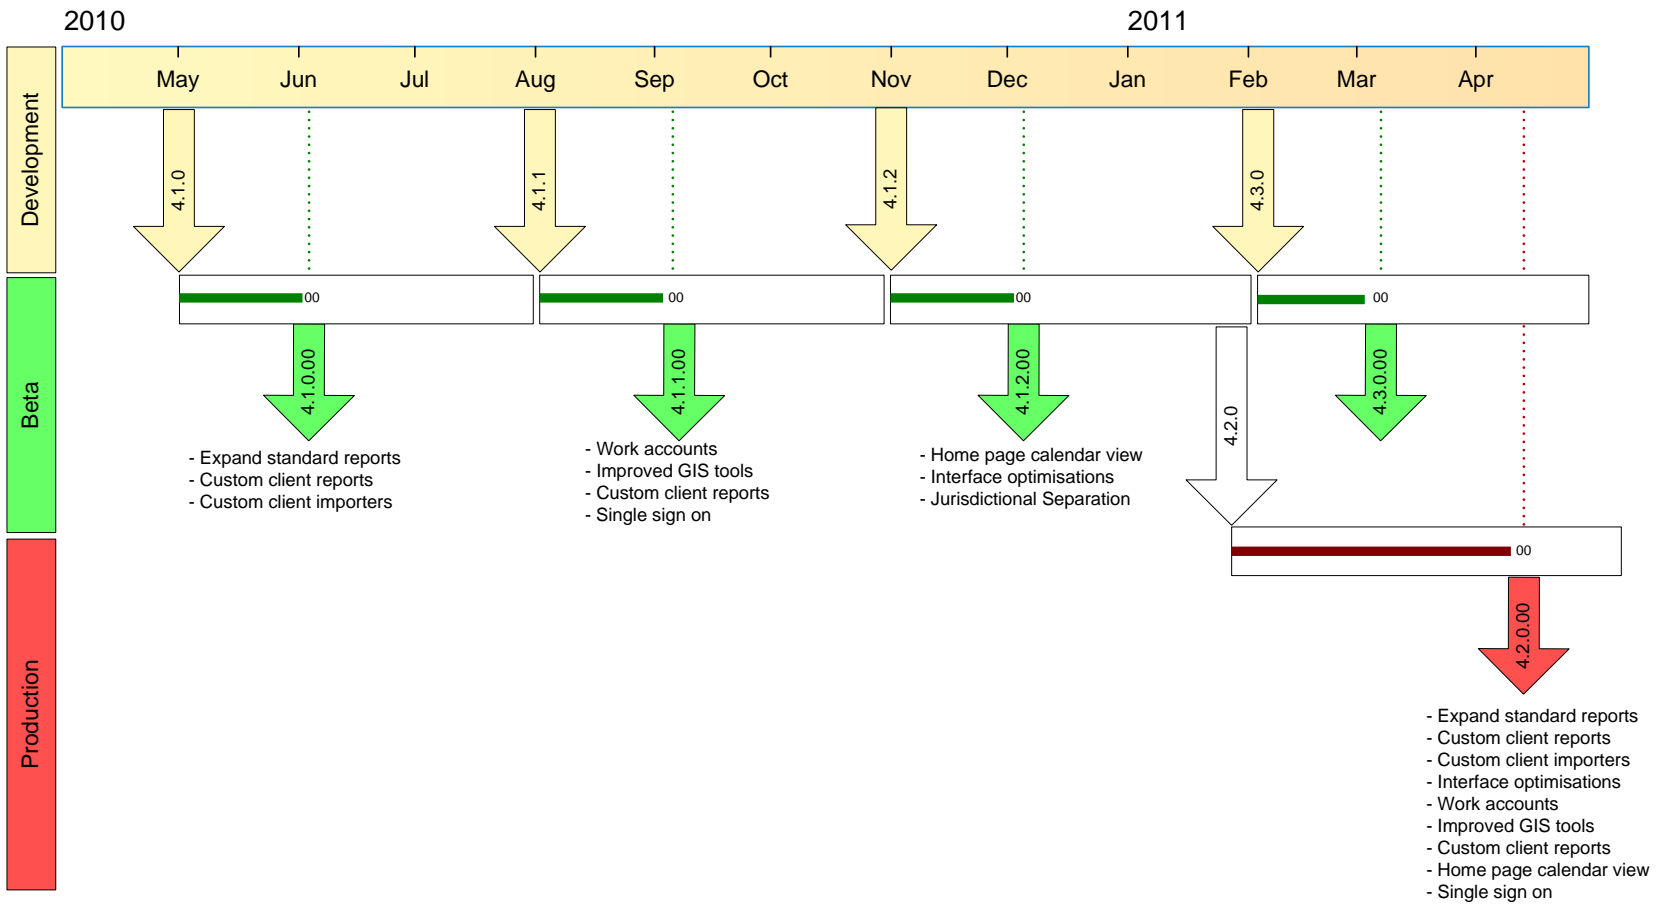

Adding new functionality?

Enhancements released in 2009/10

Having a plan for more cool functionality?

Enhancements planned for 2010/11

Blue chip international client base?

DR Congo

Ethiopia

Greenland

Mocambique

Senegal

South Africa

Tanzania

Zambia

Liberia

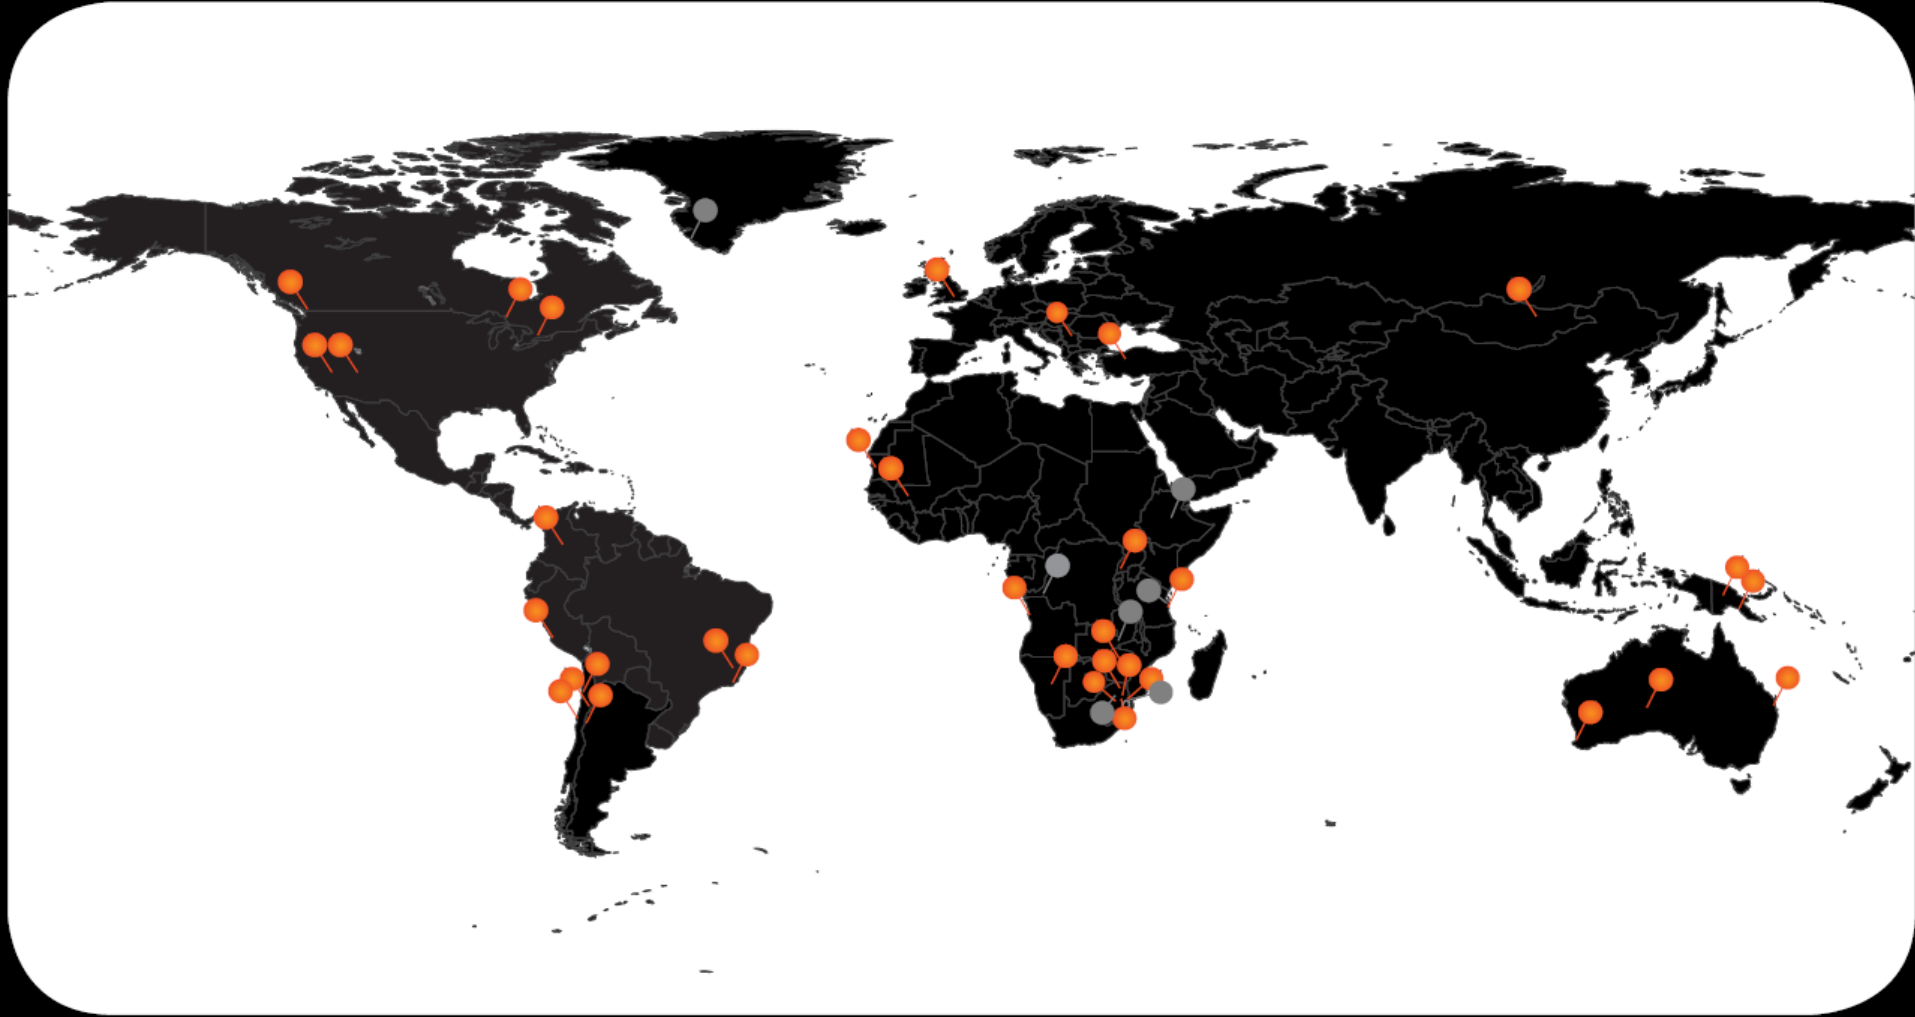

All those of useful metrics, but

to me success is about people

our users

MS GROUP

The screenshot shows a Windows Internet Explorer browser window displaying the MS Group website. The address bar shows the URL <http://www.msgroup.net/>. The website features a navigation menu on the left with the following items: MS GROUP, MINERAL SERVICES, REMOTE EXPLORATION SERVICES, REMOTE DRILLING SERVICES, MS AVIATION, MS ENGINEERING, SPATIAL DIMENSION, SWEDISH GEOLOGICAL, and BLACKWAGON. The main content area includes a large banner with the text "THE MS GROUP OF BUSINESSES" and a central "About Us" section. The "About Us" section contains the following text: "The MS Group is engaged across a broad spectrum of businesses including mineral consulting, exploration and drilling services, laboratory support, software development, aviation and engineering." "MS Group is run by passionate, professional people. It employs over 120 staff, with its largest offices located in Cape Town and Vancouver. Operational bases are sited in Botswana, Namibia, the Democratic Republic of Congo (DRC), Gabon, Ireland, UK, Guernsey, Mauritius and Sweden." "While the businesses that make up the MS Group are involved in a variety of endeavours, they identify with each other as part of a broader team and are committed to supporting each other across that diversity. This group framework and foundation has enabled the MS Group to develop a range of entrepreneurial and innovative businesses that represent the interests and values of the people who work in them." To the right of the "About Us" section, there are two featured sections: "Remote Exploration Services" with a "See more..." link and an image of a person in a field, and "Remote Drilling Services" with a "See more..." link and an image of a drilling rig. The browser window also shows a status bar at the bottom with "Done" and "Internet" icons, and a zoom level of 100%.

Thank You
