Anniversary Date	Not Used ▼
Application Date	Not Editable ▼
Application Number	Available ▼
Beneficial Interest Date	Not Editable ▼
Comment	Available ▼
Commodities *	Available ▼
Conditions *	Available ▼
Coordinate System	Available ▼

What's Coming?

Merge 'Tab Visibility' controls with new 'Field Settings' controls

The screenshot displays the FlexiCadastré 5.4 Demo (5.3.2.00 (Development)) interface. The user is logged in as Toby Mills (sign out). The breadcrumb trail is Admin Tools > System Types > License Types > View. The search bar is empty. The left sidebar contains navigation links: Home, Licenses, Agreements, Actions, Approvals, Maps, Maps (JS), Reports, Documents, Companies, People, Competitor Monitoring, My Settings, Admin Tools (selected), and Help.

The main content area shows the 'License Type Name: ON Claim'. The 'Field Settings' tab is active, with other tabs including General, Relinquishment, Work Commitments, Exclusivity, Workflows, Documents, Shape Settings, Reference Points, License Code Settings, Date Calculations, Map References, Required Reference Codes, Required Document Types, Commodities, Tabs, and Status.

The 'License Status Group' is set to 'Active' and the 'Page' is 'License Details'. A message states: 'There are 46 Fields in the list.' Below this is a table with 46 rows, showing the first row:

Field	Setting
Accounting Code	Required
Address *	Available
Agreements *	Available
Anniversary Date	Not Used
Application Date	Not Editable
Application Number	Available
Beneficial Interest Date	Not Used
Comment	Available
Commodities *	Available
Conditions *	Available
Coordinate System	Available
