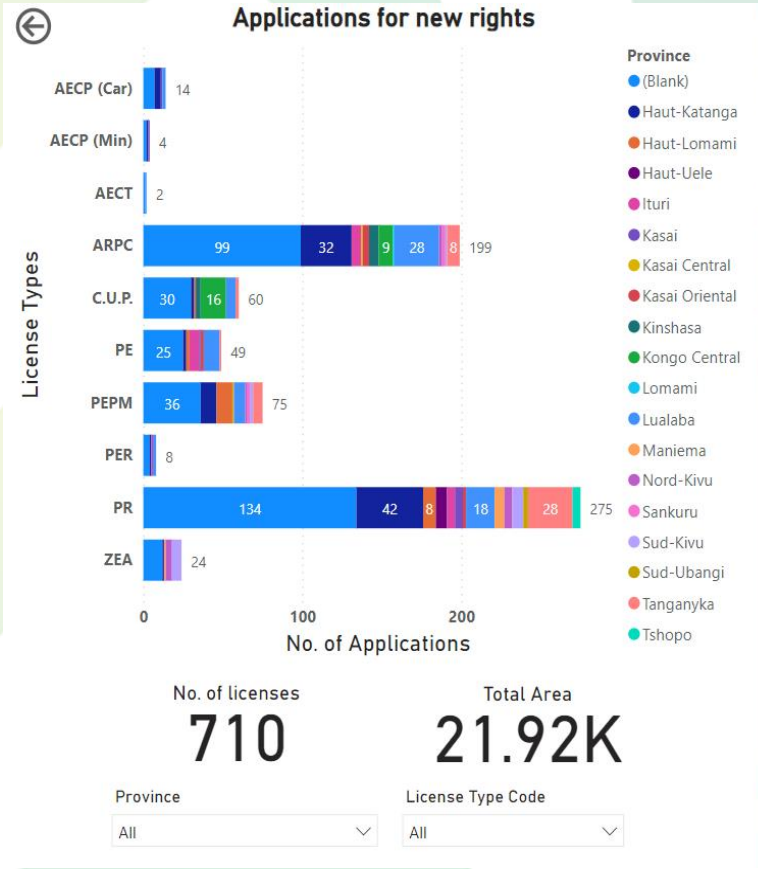
Dashboards & Maps

Using effective visuals that drive informed decisions



Spatial Dimension

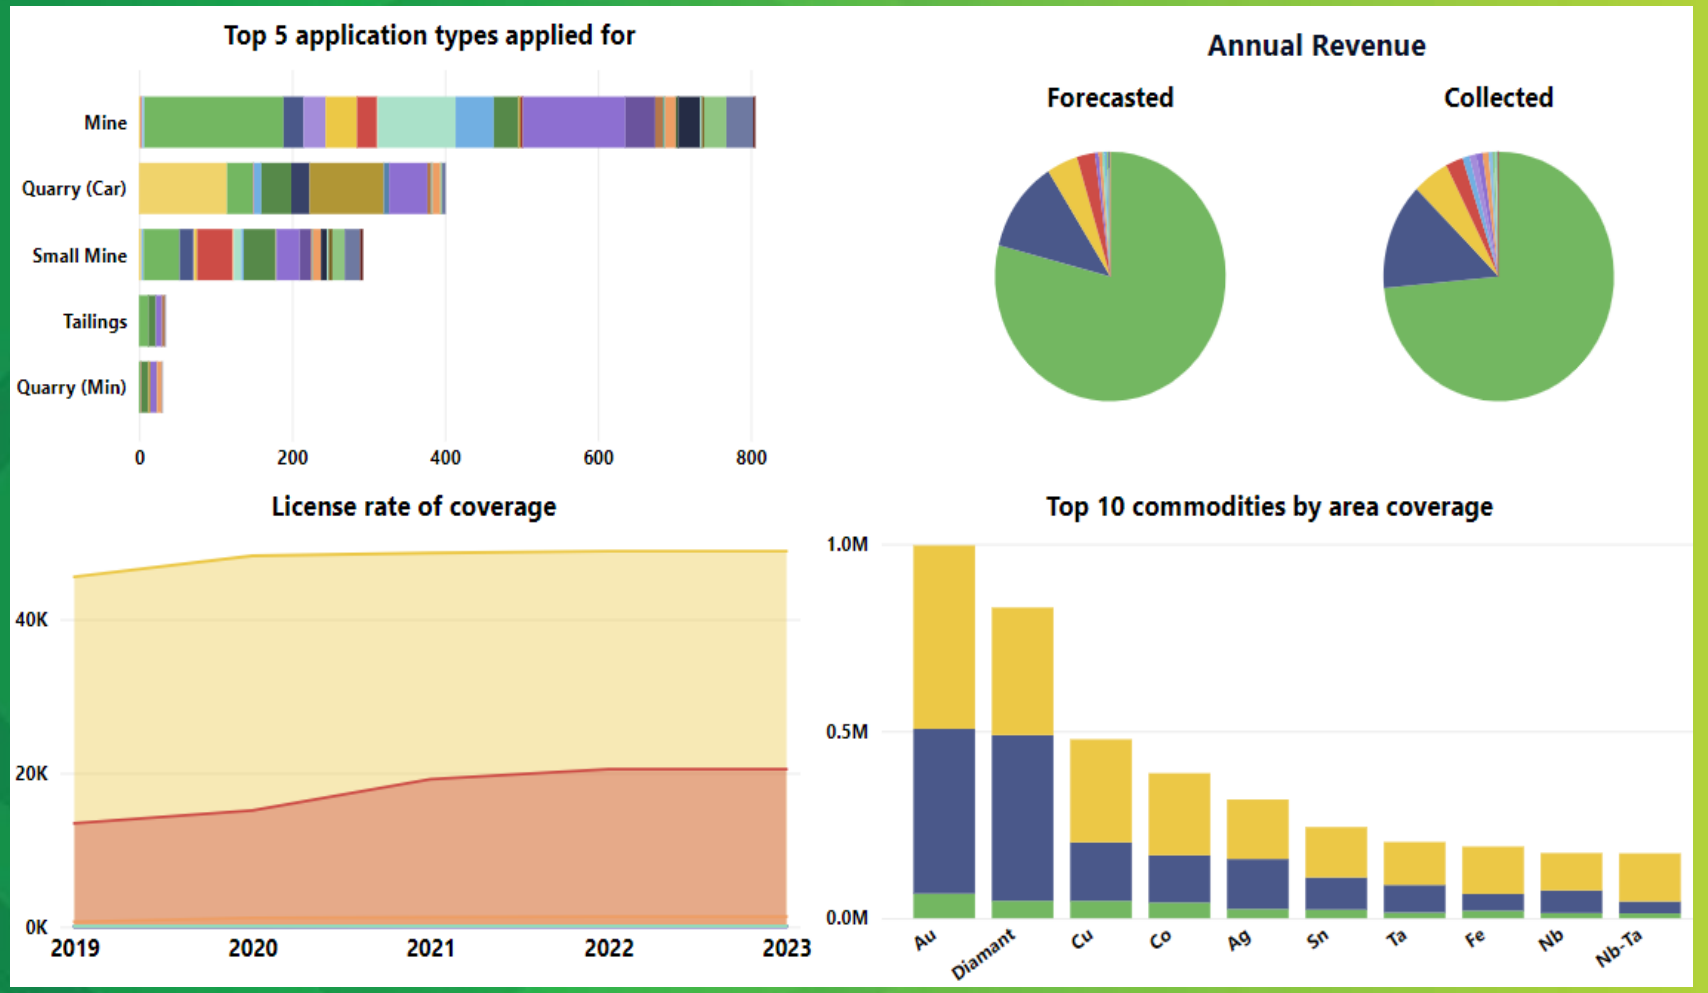
Taking Landfolio to the next level with dashboards

Effective visualization for Mineral Titles Management

Spatial Dimension

Executive Overview

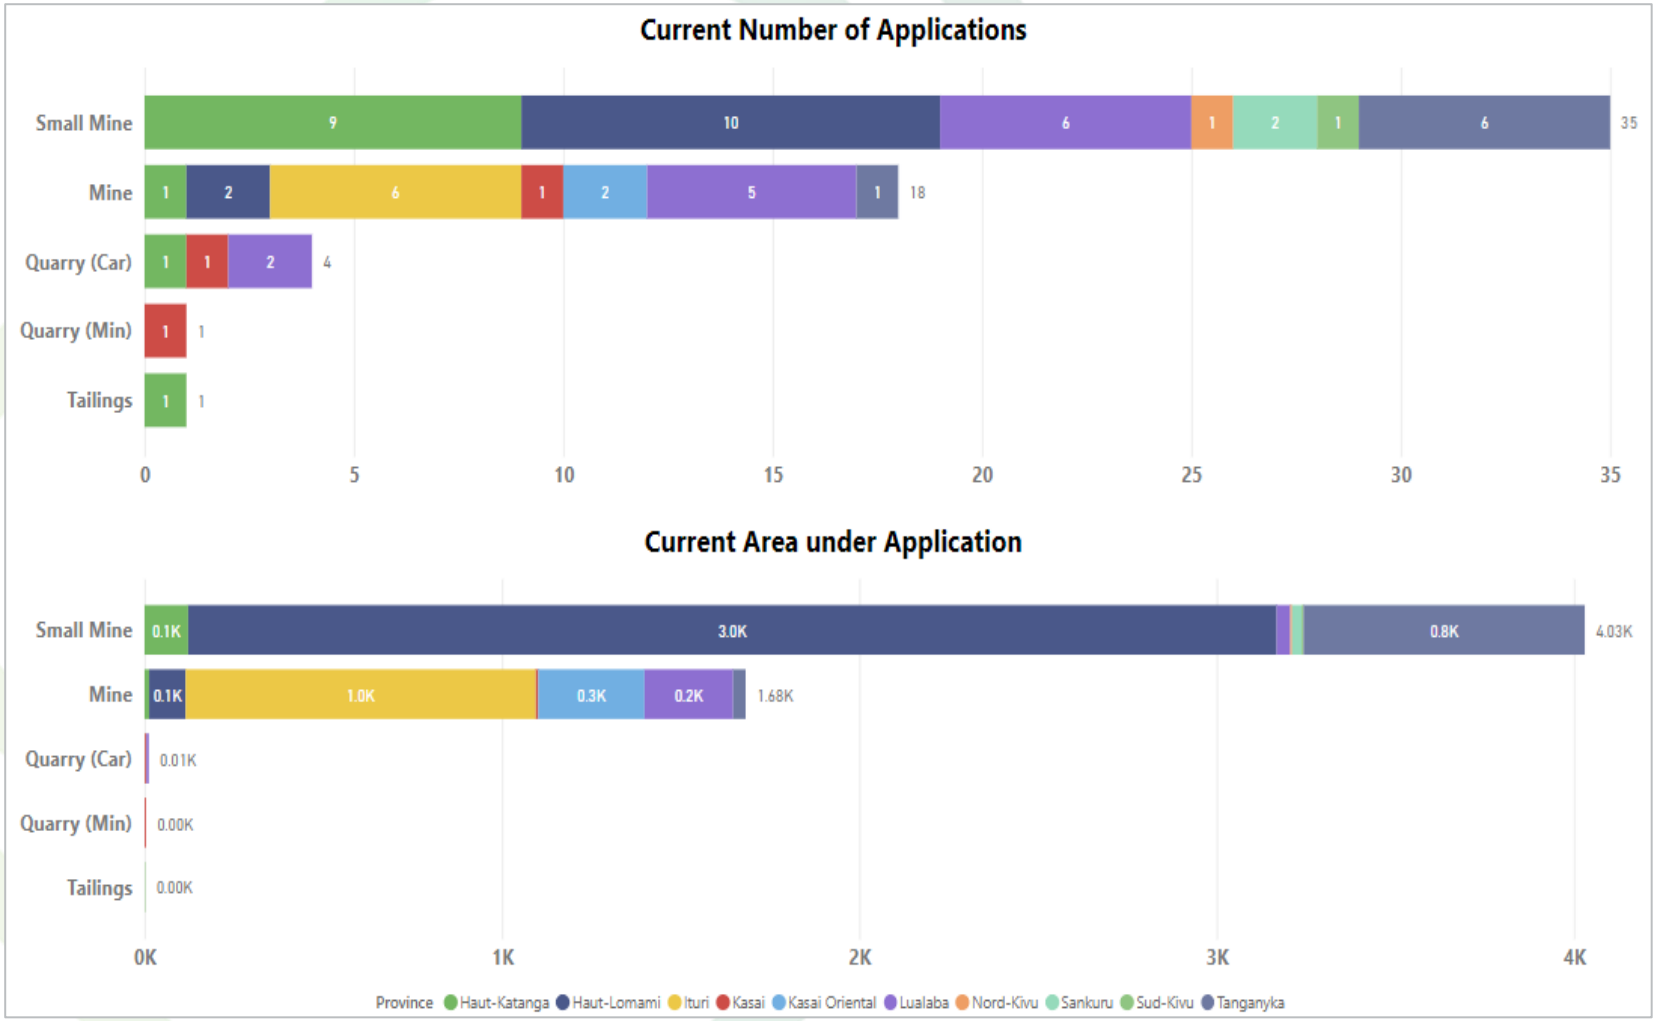
- One page showing
  - Various graphs
  - Wide variety of information
- Overall status at a glance
  - Applications
  - Active licenses
  - Revenue forecast and collections
- Graphs make identifying discrepancies quick and easy



Spatial Dimension

Monitor Applications

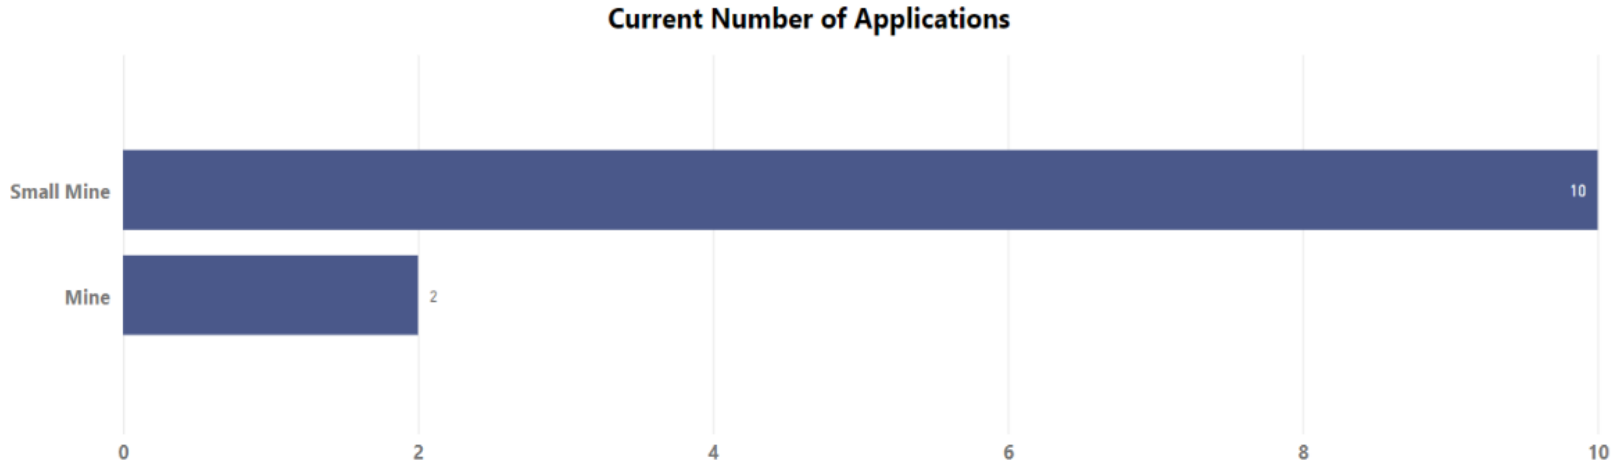
- Focusing on
  - License types
  - Areas e.g. provinces
- Looking at
  - Number of applications
  - Area coverage of these applications

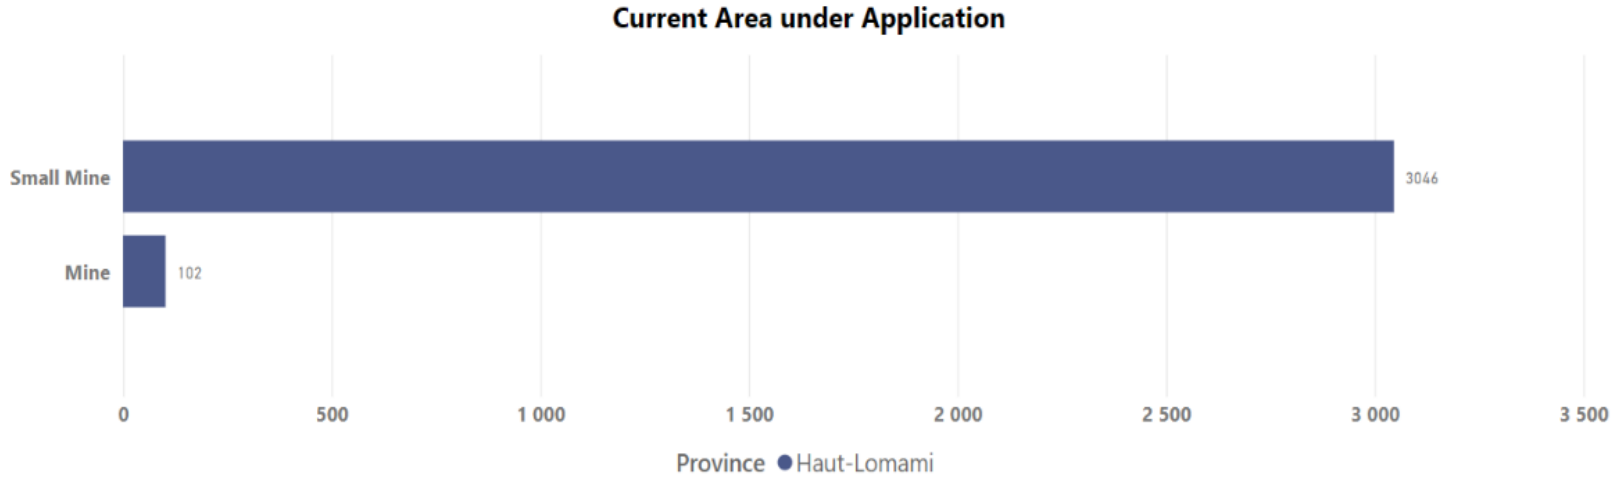


Spatial Dimension

Monitor Applications

- Filtered on Province:
  - Haut-Lomami

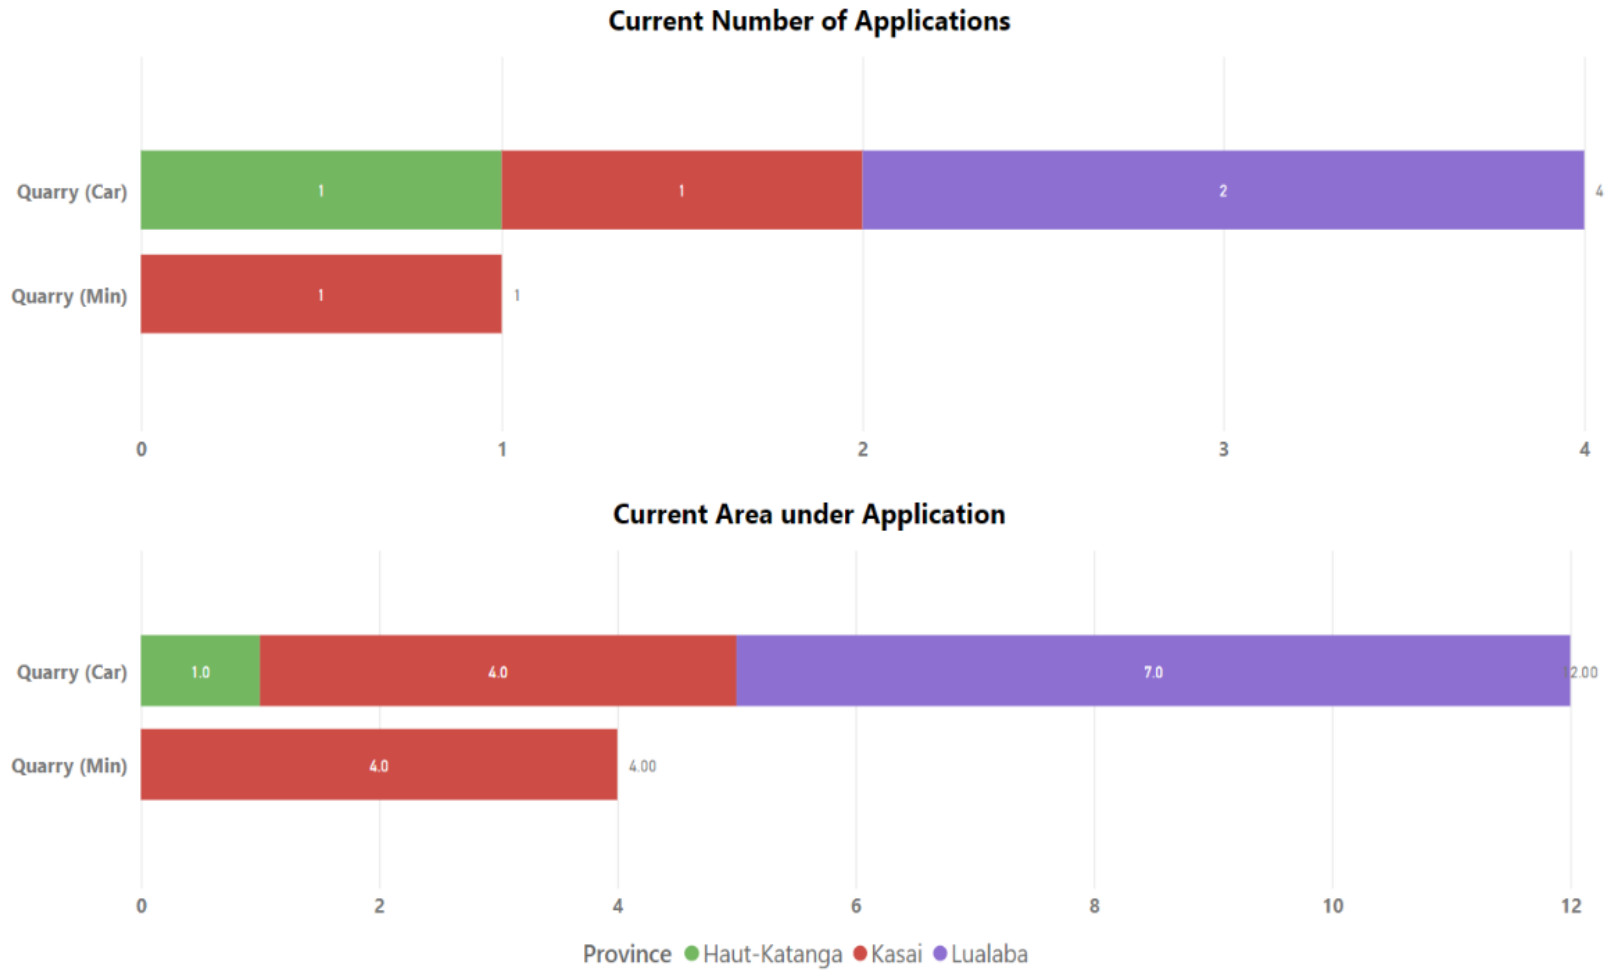




Spatial Dimension

Monitor applications

- Filter on license types:
  - Quarry (Car)
  - Quarry (Min)

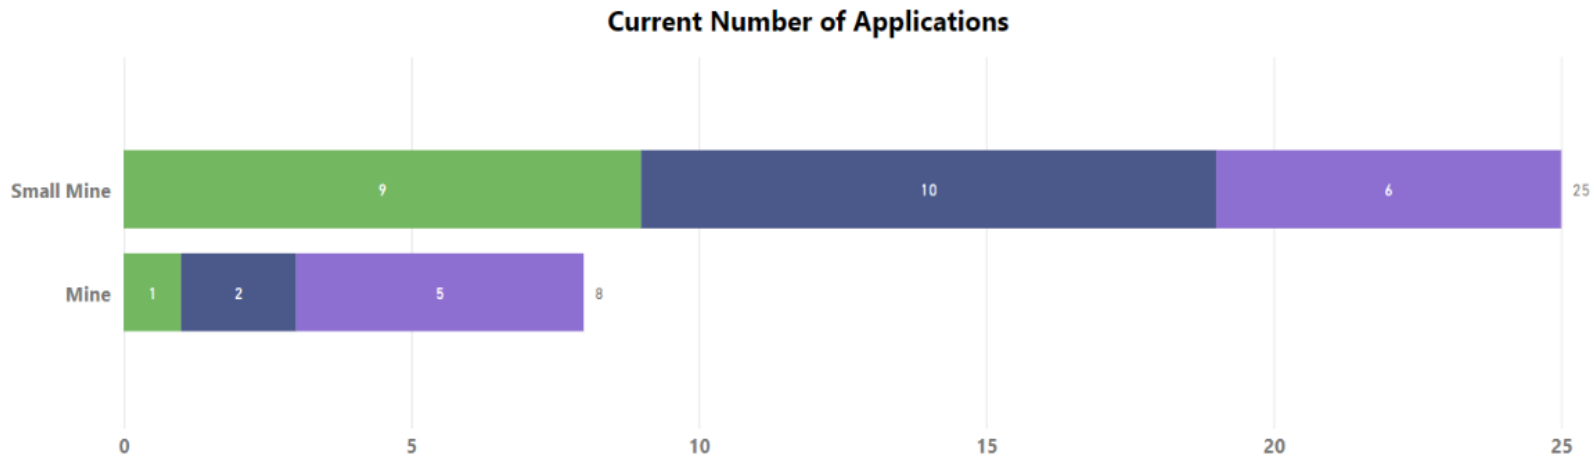


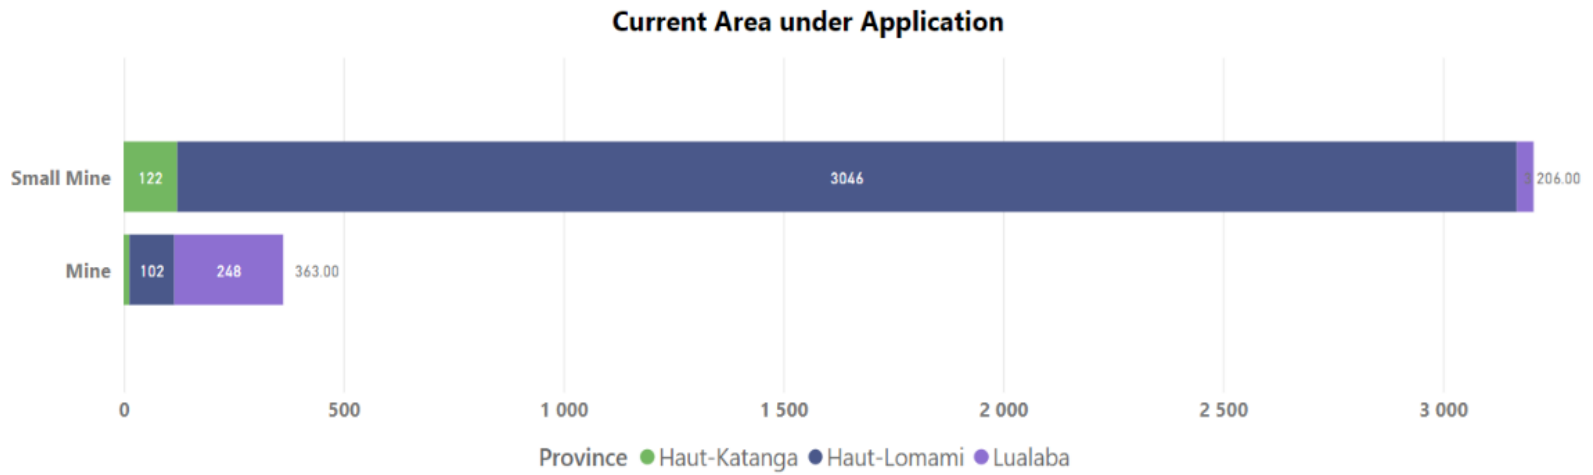
Spatial Dimension

Monitor applications

- Filter on license types:
  - Small Mine
  - Mine
  - Also filter on provinces
  - Haut-Katanga
  - Haut–Lomami
  - Lulaba

Spatial Dimension

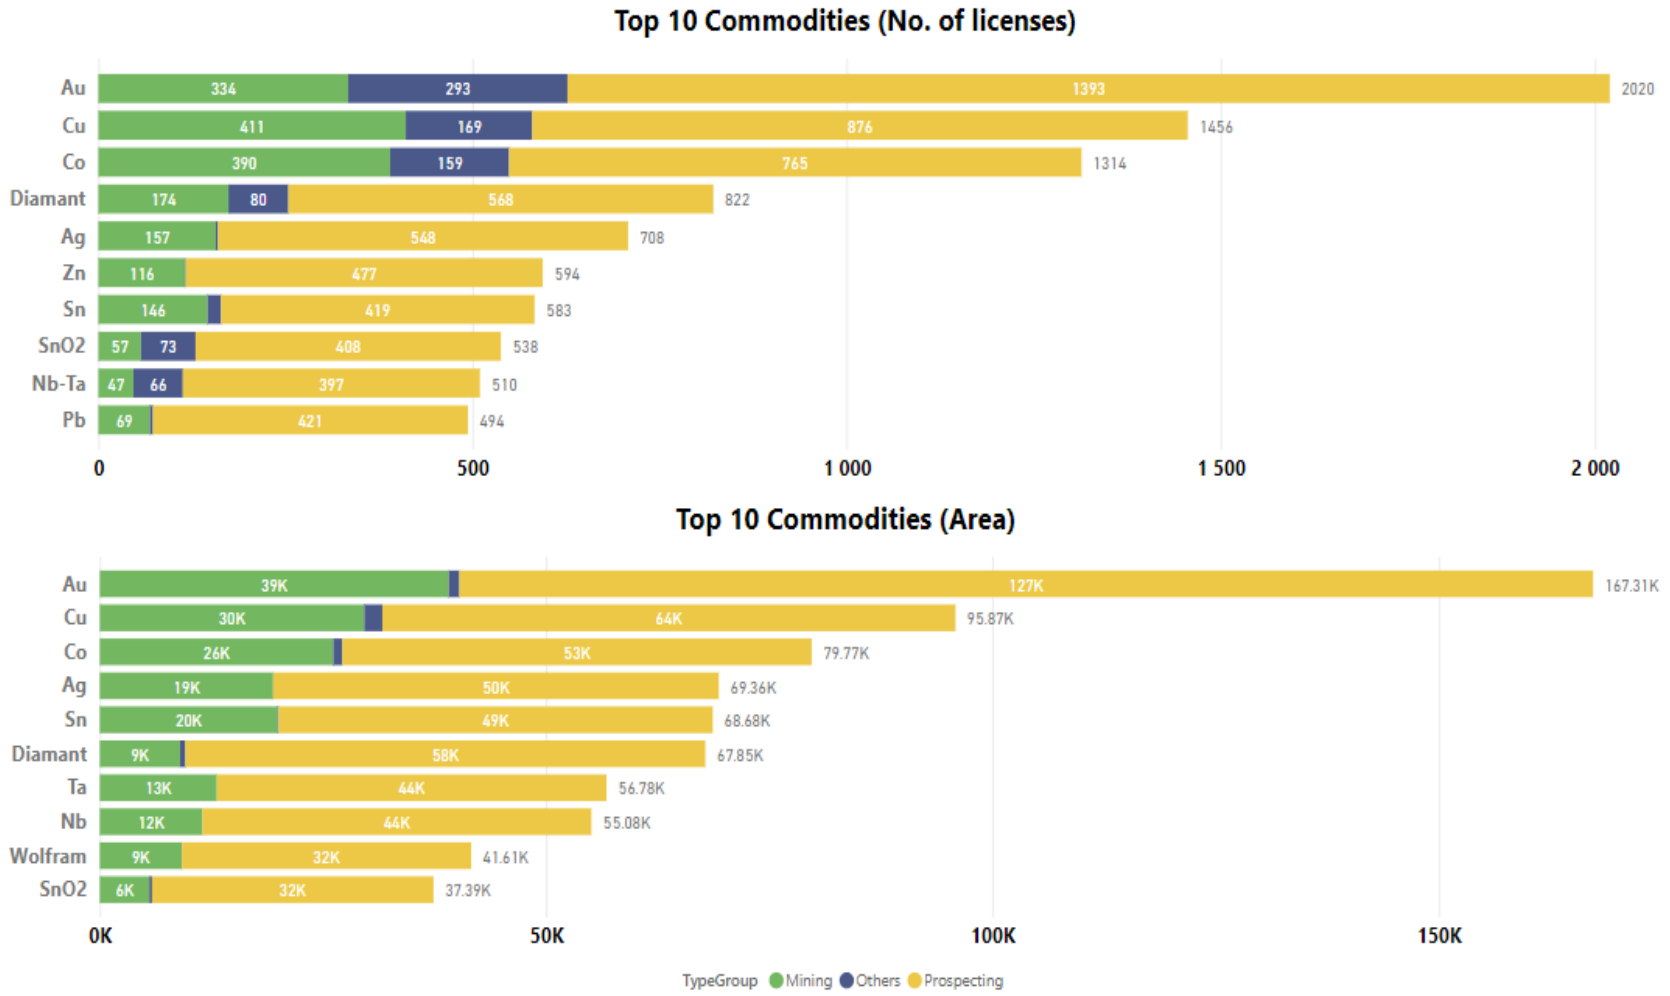




Mineral Titles Management

- Active Licenses grouped by the top 10 commodities by
  - Number of licenses
  - Coverage
- Grouped by
  - Main categories
    - Mining
    - Others
    - Prospecting

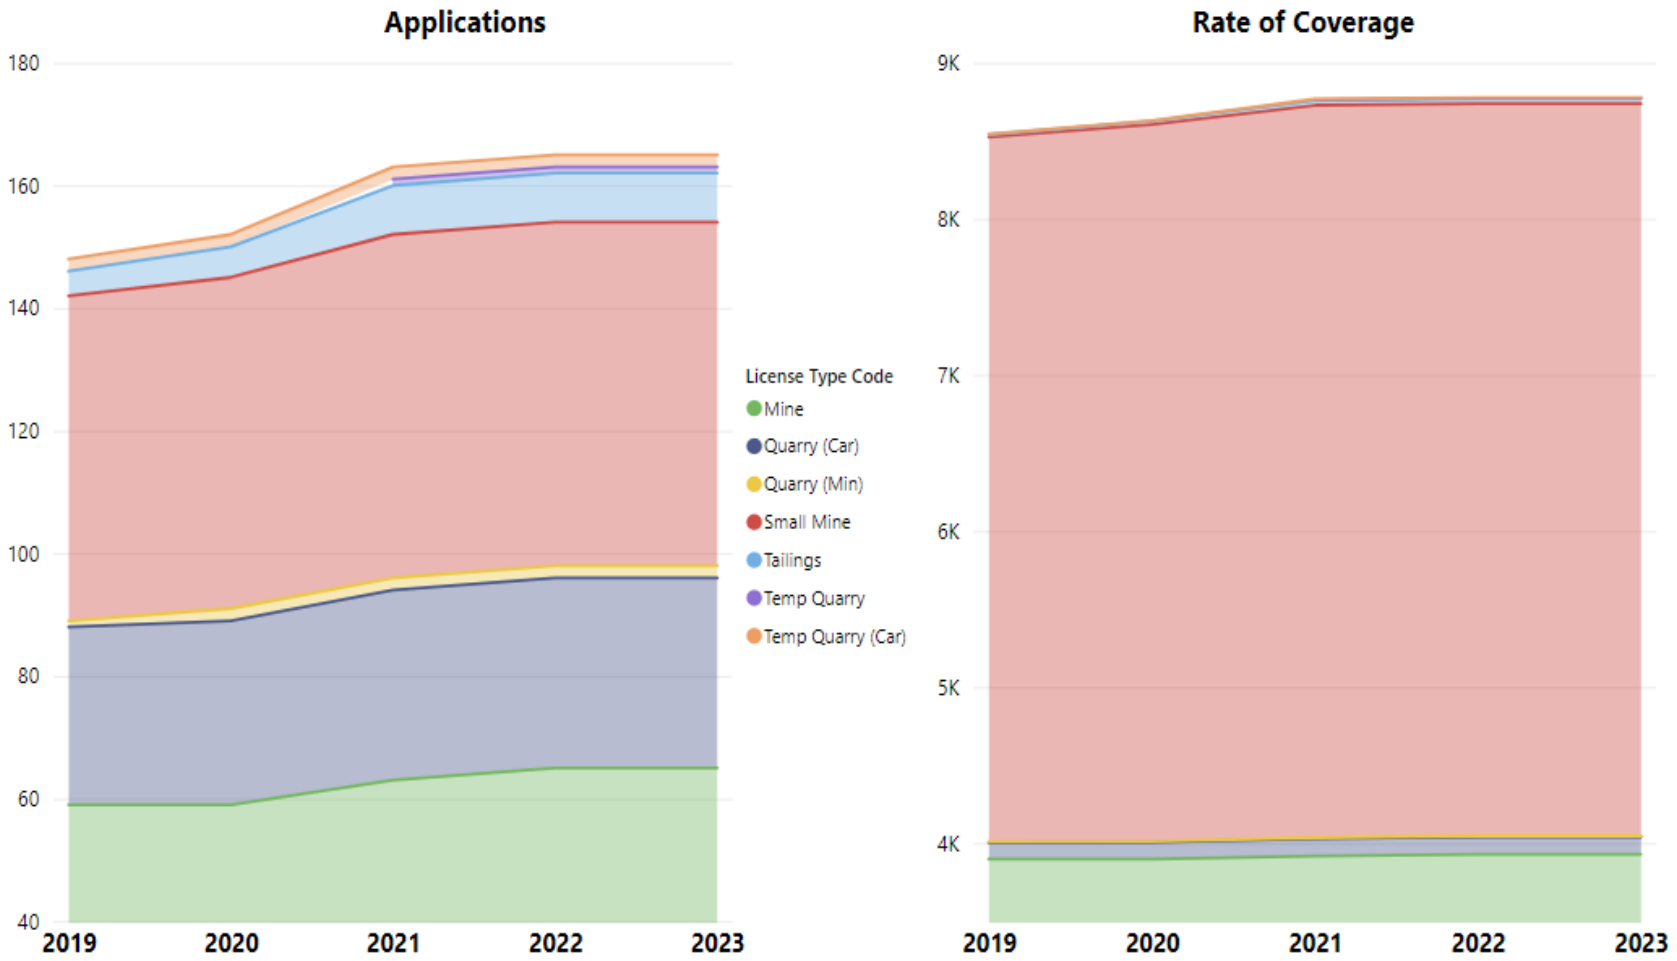
Spatial Dimension



Evolution

- Evolution of applications
  Mining Applications
  Rate of coverage
- Focusing on the last 5 years

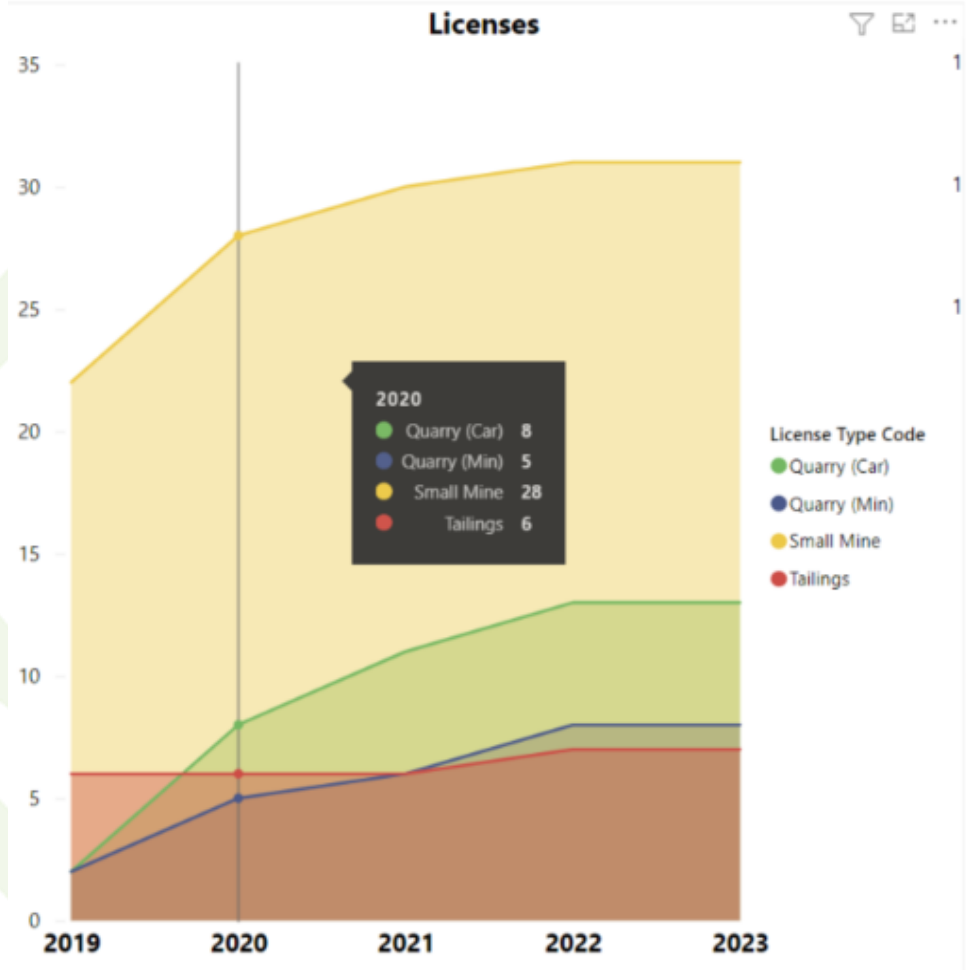
Spatial Dimension

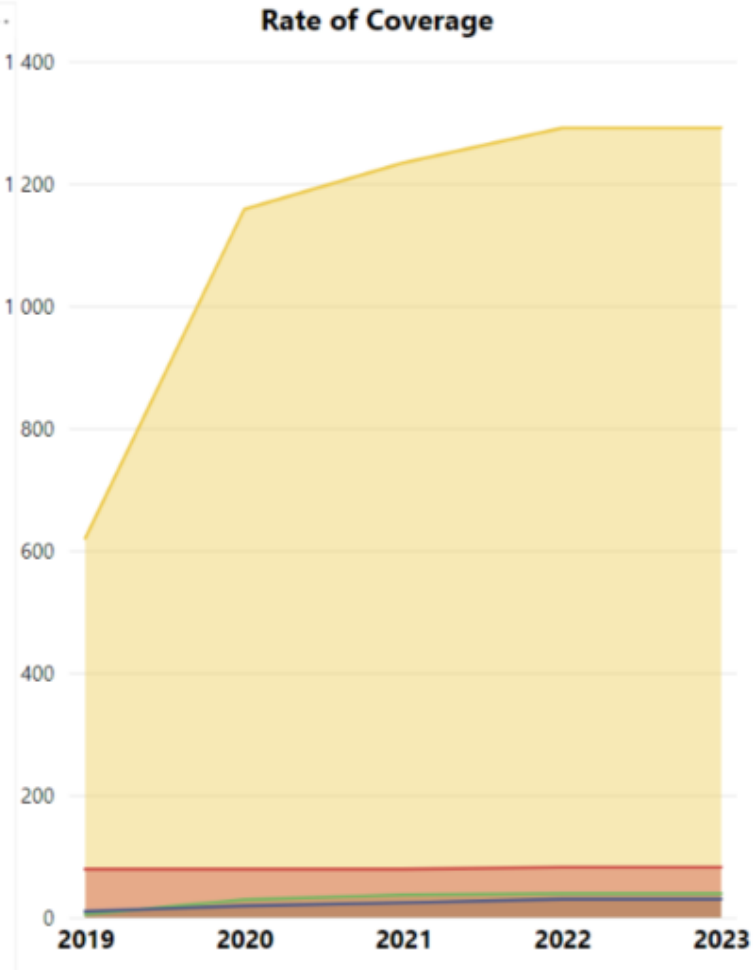


Evolution of small scale mining

- Evolution of licenses
- Active licenses
- Rate of coverage

- Focusing on the last 5 years

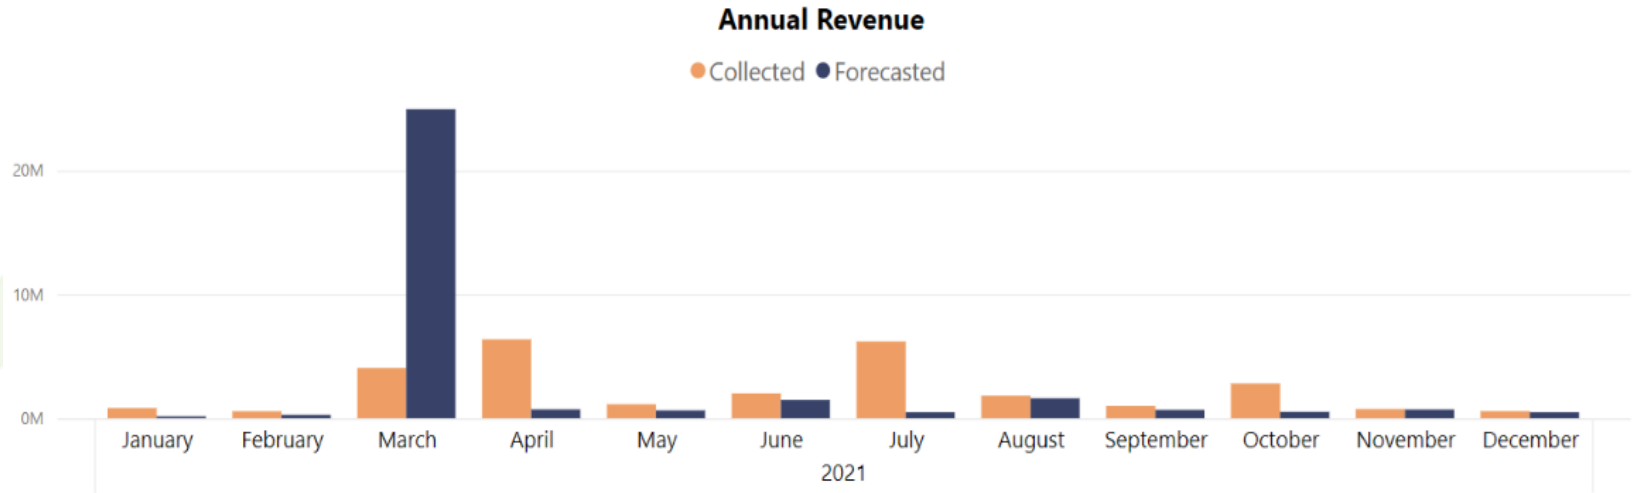


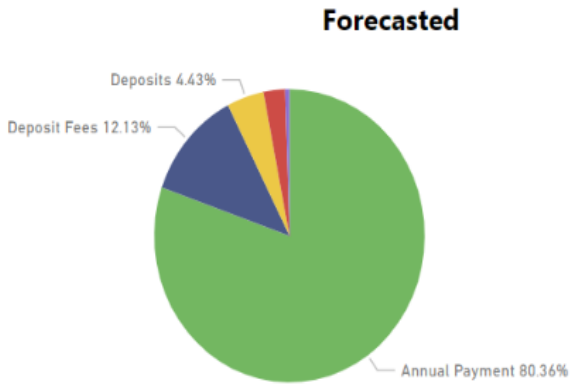


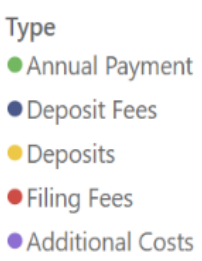
Spatial Dimension

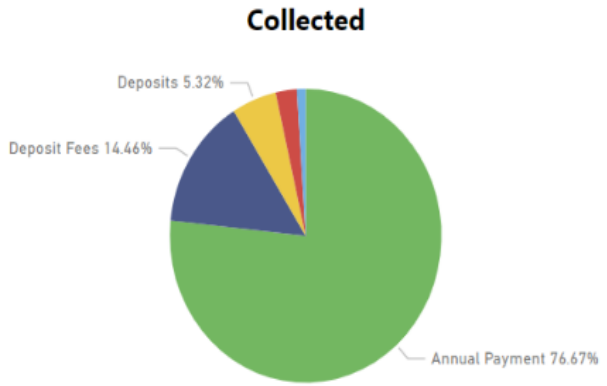
Revenue

Analyzing revenue
- Forecasts
- Outstanding
- Collected









Spatial Dimension

Taking Landfolio to the next level by adding maps to your dashboards

Effective visualization for Power BI users

Spatial Dimension

Monitor Applications

Same information as before BUT with an interactive map.
